THANK YOU FOR CHOOSING REAUDIO!

Thank you for choosing RE products. It is our commitment to provide our valued customers with the best products in the mobile audio industry and we want to reaffirm that your satisfaction is our number one priority. You'll see our commitment to your satisfaction in our ongoing dedication to providing you with better products and services.

RE Audio was founded by audio enthusiasts for audio enthusiasts.

We understand the uses (and often abuses) in autosound and engineer products for the real world.

Our products have the finesse and sound quality to please the most discriminating audiophile, yet the durability to stand up to the extreme abuses of SPL competition. Here at RE, our passion drives us to design the products that we want to use.

Again, we thank you for choosing RE Audio.

defining a new generation!™

Enclosure Info

(Sealed enclosure application)

REXs4 Series subwoofers perform well in any size sealed enclosure between the compact and standard recommendations. The "Compact" recommendation produces high impact "tight" bass response as exhibited by Rock, Heavy Metal, Jazz and Classical music. The standard recommendation offers lower bass extension as is more exhibited by Hip Hop, R&B and Dance type music.

	<u>REX8s4</u>	<u>REX10s4</u>	<u>REX12s4</u>
Sealed (Compact), liters/ft ³ (Gross Internal Volume)*	12.46/0.44	24.35/0.86	31.72/1.12
Sealed (Standard), liters/ft ³ (Gross Internal Volume)*	18.41/0.74	25.49/1.0	48.48/1.62
Volume displacement of driver(Vd), liters/ft ³	2.55/0.09	3.11/0.11	3.40/0.12

*INCLUDES VOLUME DISPLACEMENT OF THE DRIVER.

Enclosure Info

(Ported enclosure application)

The compact design increases bass output and low frequency extension over that of the sealed box recommendations.

The larger size standard recommendation has an even greater increase in bass output and low bass extension.

The Standard ported recommended enclosure size is a very practical size recommendation. Being able to increase the size of the enclosure from that of the listed recommendations often results in even greater bass output. If you have more volume to build an enclosure than what is listed here, please contact RE Audio technical support to determine if using a larger enclosure (custom) will give the desired or improved results for your application.
